## LED Path Light

Product Code: PNDK-0104-C

Power: 1W or 3W

Luminous flux: 90Lm/W

Color rendering: >80Ra

LED brand: CREE LEDinput

voltage: DC12V-24V

Optional beam angle: 45° 60° Conventional stock 45°

Color temperature optional: warm white (3000K±10%), white (4000K±10%), cool white 6000K±10%; other light colors are optional: red, green, blue, yellow

Protection level: IP67

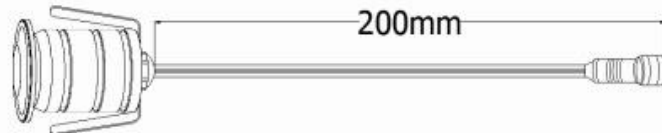

Lamp body material: 6063 aluminum

size: D38\*48\*27mm

service life: 35000 hours

### Specifications:

### Features:

- ◆Independent research and development, private model products, finely crafted, small body, flexible and wide application;
- ◆Rich and optional light colors, amber light, warm white light, sun white light, cold white light, red, green, blue and other lights; light Uniform scattering, high lumen output
- ◆The beam angle can be selected according to different applications, with condensing and expanding options;
